DETAILED ACTION

Claims 96-124 are currently pending in the application.

Applicant is advised that the petition filed on 18 December 2001 is moot. The response filed 22 October 2001, now Paper No. 22 has been matched with the file and the abandonment is withdrawn (see rescinding abandonment, Paper No. 21, mailed 3 January 2002).

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 114-119 and 120-124 drawn to products of the compound of the formula as found in claim 114 variously classified in class 554.
- II. Claims 96-113 drawn to methods of facilitating administration of the products of invention I and methods of treating cachexia in cancer patients variously classified in class 514.

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product as claimed can be used in a materially different process of using that product as can be seen by the instant specification (i.e. the treatment of cachexia in cancer patients and the treatment of rheumatoid arthritis, see pages 29-30 (a)-(s)).

Art Unit: 1626

Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143). Also, it is noted that if applicant elects claims directed to the product, and a product claim is subsequently found allowable, withdrawn process claims, which depend from or otherwise include all the limitations of the allowable product claim will be rejoined. See MPEP § 821.04.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
